

Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

New Perfection Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no smell.

The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

THE HOT SPRINGS OF ARKANSAS

More than a mountain resort, more than a fashionable playground—these wonderful springs, with their mysterious health-giving waters, have become world famous as *Natures Greatest Sanitarium* set apart by the United States government for the benefit of humanity.

Where modern medical science joins hands with the wonderful curative agencies of nature—a retreat for the careworn or suffering in the great, beautiful out-of-doors.

Water is the greatest eliminator of human ills and the Hot Springs of Arkansas are the greatest waters known to mankind.

Patronized every year by more than 150,000 people from all parts of the world—the recuperating station of our army and navy, the training ground of the world's greatest athletes, the assembling place of statesmen and the rendezvous of society.

THERE IS NO SUBSTITUTE FOR THE HOT SPRINGS BATHS

Luxurious hotels, medium-priced hotels and high class boarding houses with every modern convenience.

MISSOURI PACIFIC IRON MOUNTAIN

Meeting is Over.

At a farewell meeting in the big tent Monday morning Messrs. Brown and Curry took their leave. Their decision to conclude the service was reached after a consideration of all the circumstances.

The local pastors expressed their approval and appreciation of the manner in which the revival had been accomplished. Mr. Curry made a short talk and Mr. Brown gave a most appropriate sermon. At the close of the meeting a good many came forward.

These revival services have been a great thing for Lexington. The churches will be augmented and undoubtedly there will be a higher standard set up in the churches. Nearly everyone who attended with any regularity said it was the sanest big revival they had ever seen. The best wishes of Lexington go with Mr. Brown and Mr. Curry.

Dr. Fulkerson Not a Candidate.

Dr. J. J. Fulkerson stated Tuesday that he was not a candidate for re-election as County Democratic Committeeman.

"I think I have had the job long enough," he said. "I shall not in any sense be a candidate. I don't want to be elected and shall not serve if I am elected. This is absolutely final."

Dr. Fulkerson was elected two years ago without seeking the office and it was at a personal sacrifice that he served. The Democrats hate to lose the active leadership of Dr. Fulkerson, but will undoubtedly continue to respect his counsels and advice.

Mr. and Mrs. Carl Hoffman and their son, Mayo, left Tuesday morning for their home in Ft. Worth, Texas, after visiting relatives here.

Mrs. Tod Kelley left this morning for a visit in Higginsville.

Mrs. Harry St. Clair and children left Tuesday for a visit in Rich Hill.

I have purchased from H. C. Wallace, receiver for Royle & Henry, all the property recently belonging to said firm and the business will continue under my management. All firm debts of Royle & Henry must be presented for payment to the receiver, H. C. Wallace. Every attention will be given to business. Public and private patronage is solicited.

GOLD LEAF.

The Many Stages in the Process of Its Manufacture.

Gold leaf, of which such large quantities are used by picture framemakers as well as by other trades, is made as follows:

An alloy of the desired color having been formed, the gold is melted in a crucible at a temperature well above the fusion point. It is then cast into an ingot and flattened by rolling between a pair of powerful steel rollers into a ribbon one and a half inches wide and ten feet in length to the ounce.

After being flattened it is annealed and cut in pieces of about six and a half grains each and placed between the leaves of a "cutch," which is about half an inch thick and three and a half inches square, containing about 180 leaves of tough paper manufactured for the purpose. This is beaten on for about twenty minutes with a seven-pound hammer, by which the gold is spread to the size of the cutch. Each leaf is then taken out and cut in four pieces.

These are put between the leaves of a "shoder" four and a half inches square and three-quarters of an inch thick, containing about 720 skins which have been worn out in the "mold" or finishing process, described later. The shoder requires about two hours' beating with a nine pound hammer. Each leaf is again cut in four pieces and placed between the leaves of a mold composed of about 950 of the finest gold beaters' skins five inches square and three-quarters of an inch thick, the contents of one shoder filling three molds.

The material has now reached the last and most difficult stage of the process. During the first hour the hammer is allowed to fall principally on the center of the mold. This causes gaping cracks upon the edges of the leaves, the sides of which rapidly coalesce without leaving any trace of the union after being beaten upon. At the second hour, when the gold is about the one hundred and fifty thousandth part of an inch in thickness, it for the first time permits the transmission of light. If the gold is pure or but slightly alloyed green rays pass through; when highly alloyed with silver violet rays appear.

As a rule about four hours' beating with a seven pound hammer is required. A single ounce of gold will at this stage trim to about 1,200 leaves three and one-quarter inches square. The finished leaves are taken out of the mold and the rough edges trimmed off by slips of rattan fixed in parallel grooves of an instrument called a wagon, the leaf being laid upon a leather cushion for that purpose.

The leaves are placed in "books" capable of holding twenty-five leaves each, which have been rubbed over with red ochre to prevent the gold from clinging to the paper. The fine gold beaters' skin is the coat of the caecum or blind gut of the ox specially prepared.—Canadian Painter and Decorator.

A Ruskin Thought.

To be content in utter darkness and ignorance is indeed unmanly, and therefore we think that to love and find knowledge must be always right. Yet wherever pride has any share in the work even knowledge and light may be ill pursued. Knowledge is good, and light is good, yet man perished in seeking knowledge, and the moths perish in seeking light, and if we who are crushed before the moth will not accept such mystery as is needful to us we shall perish in like manner. None but the proud will mourn over this, for we may always know more, if we choose, by working on, but the pleasure is, I think, to humble people, in knowing that the journey is endless, the treasure inexhaustible.—Ruskin.

Age of Criminal Responsibility.

In England the law looks upon every one over the age of seven as a responsible being, and every child beyond that age can be prosecuted as a criminal. The same age is accepted in Russia and Portugal. In France and Belgium the age is eight, in Italy and Spain it is nine. Norway, Greece, Austria, Denmark and Holland decline to prosecute a child under ten, and this is the rule also in some of the Swiss cantons. In Germany the limit of responsibility is fixed at twelve.

Timely Advice.

It was during a performance of "Faust" in a provincial town. After the duel Martha, who rushed in at the head of the crowd, raised Valentin's head and held him in her arms during the first part of the scene and exclaimed in evident alarm, "Oh, what shall I do?"

For a moment there was a death-like stillness in the house, when a voice from the gallery suddenly called out, "Unbutton his waist."

Free Sample Aids Old Men

The sudden change from years of activity of both body and mind to the quiet of later years causes the human system to undergo many changes, chief of which is in the digestive organs.

It becomes harder and harder to get the bowels to move promptly and regularly and in consequence many elderly men suffer not only from the basic trouble, constipation, but from indigestion, headache, belching, sour stomach, drowsiness after eating and similar annoyances. It is first of all necessary to keep the bowels open and then to tone the digestive muscles so as to get them to again do their work naturally. A violent cathartic or purgative is not only unnecessary but harmful, and something mild will do the work just as well.

After you have got through experimenting with salts and pills and waters of various kinds, and have become convinced that they do only temporary good at best, then try Dr. Caldwell's Syrup Pepsin, a mild, gentle, pleasant-tasting laxative tonic that is especially adapted to the requirements of old people, women and children, and yet is effective enough for anybody. Your druggist, who has handled it successfully for a quarter of a century, will sell you a bottle for fifty cents or one dollar, but if you want to make a test of it before spending any money send your name and address to Dr. Caldwell and he will gladly send you a sample bottle free of charge.

This remedy is rapidly displacing all other forms of medication for the cure of stomach, liver and bowel trouble, and families like Mr. O. F. Wisner's of Syracuse, Ill., and Mrs. Carrie Collier's of 25 N. Notre Dame street, South Bend, Ind., are now never without it in the house. They have tested it and know its grand value to every member of the family.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 500 Caldwell building, Monticello, Ill.

Life of Gov. Johnson

The life-story of the "Great Governor of Minnesota" is the most inspiring story of the life of a real man that has been published in this generation.

The late governor was characterized as the most lovable man in public life since the days of Abraham Lincoln, and his biography is instructive, inspirational and thrilling.

The "Life" was published by authority of the widow, and in her behalf. The authors and publishers were intimate friends of the late governor, one of them, Mr. Day, being his private secretary.

The book contains 430 type pages and 22 pages of illustrations, or 452 pages all told, and is a perfect specimen of the best printing and binding.
